SCHRUMPF AND CAMPBELL JOIN KOFFEL ASSOCIATES

Koffel Associates, Inc. is pleased to announce the hiring of Kina Campbell, P.E. as Senior Fire Protection Engineer, and Lauren Schrupf as Fire Protection Engineer.

Campbell, a graduate of University of Maryland, received her Bachelors of Science degree in Fire Protection Engineering in 1999. Since April 1998, with the exception of an 18 month period of time, she was with Prince George's County Government most recently as the Associate Director, overseeing the daily operations of the Permit/Licenses and Building Plan Review Divisions within the Department of Permitting, Inspections and Enforcement (DPIE). Campbell also served as Building Code Official and Fire Code Official for the County. As Fire Code Official, she was the liaison between DPIE and the Fire Chief, made decisions for waivers or variances to the Code and ensured that fire/life safety regulations were enforced. During the 18 month period that she was not with the County, Campbell was a Fire Protection Specialist with the EPA where she provided plan reviews for new projects within the Agency as well as evaluated audit findings at all EPA locations nationwide.

Schrumpf, a graduate of University of Maryland, received her Bachelors of Science degree in Fire Protection Engineering in May, 2014. She joined the Koffel Team full-time after working for the firm part-time for the past 12 months. As an engineering intern, Schrupf assisted us with research, surveys, and fire suppression system AutoCAD drawing support.

ABOUT KOFFEL ASSOCIATES

Koffel Associates is a fire protection and life safety engineering design and consulting firm, recognized as an expert in the fire protection and life safety aspects of codes and standards. Headquartered in the Baltimore-Washington metropolitan area, Koffel provides consulting; engineering design & construction administration; codes & standards development; seminar development & training; product testing & evaluation/representation; and litigation support to public and private clients worldwide. Since 1986, Koffel Associates' team of industry leaders and staff—fire protection engineers; registered engineers; NICET-certified technicians; code officials; and authorized National Fire Protection Association (NFPA), Centers for Medicare & Medicaid Services (CMS) and International Code Council (ICC) trainers—have met the design and consulting needs of its clients.
