KOFFEL ASSOCIATES AWARDED THE DAVID A. LUCHT LAMP OF KNOWLEDGE AWARD

Koffel Associates was awarded the [David A. Lucht Lamp of Knowledge Award](#) by the Society of Fire Protection Engineering (SFPE), honoring and recognizing the “organization, company, or individual that has contributed substantially to increasing the opportunities for higher education in fire protection engineering.” The award is named after David A. Lucht, P.E., FSFPE, “in recognition of his 25 years of leadership and dedication to the Worcester Polytechnic Institute (WPI) Center for Firesafety Studies and his tireless efforts on behalf of the fire protection engineering profession.” On November 10, 2015, at the SFPE North America Conference & Expo Awards dinner, in front of his peers in the fire protection industry, Erik Anderson, P.E. proudly accepted the award on behalf of Koffel Associates.

Growth and advancement has always been a priority at Koffel Associates where we encourage our employees to further their learning and enhance their knowledge through continuing education and advanced professional degrees. Annually we welcome fire protection engineering students as interns, to learn as they work, side by side, with our experts. While gaining knowledge and real life experiences, their love of fire protection engineering is nurtured and fostered, and they themselves are appreciated and recognized within our corporate culture.

ABOUT KOFFEL ASSOCIATES

Koffel Associates is a small business, fire protection and life safety engineering design and consulting firm, recognized as an expert in the fire protection and life safety aspects of codes and standards. Headquartered in the Baltimore-Washington metropolitan area, Koffel Associates’ 22 Fire Protection Engineers provide consulting; engineering design & construction administration; codes & standards development; seminar development & training; product testing & evaluation/representation; and litigation support to public and private clients worldwide. Since 1986, Koffel Associates’ team of industry leaders and staff—fire protection engineers; registered engineers; NICET-certified technicians; code officials; and authorized National Fire Protection Association (NFPA), Centers for Medicare & Medicaid Services (CMS) and International Code Council (ICC) trainers—have met the design and consulting needs of its clients.
